

This is the HomePage for the traveler:

Traveler Sign Up Page:

A screenshot of a web browser showing the "Backpacker Sign Up" page for HomeAway. The page has a clean design with a header featuring the HomeAway logo and a user icon. The main title is "Backpacker Sign Up" followed by "Sign up to HomeAway". Below the title, there is a link "Already have an account? Log in". There are four input fields: "First Name" and "Last Name" side-by-side, an "Email address" field, and a "Password" field. A large blue "Sign Me Up" button is centered below these fields. A horizontal line with the word "or" and a "Log in with Facebook" button are at the bottom.

Filter the data by price and bedrooms both together:

Before applying bedroom filter on the price filtered data:

The screenshot shows a browser window for a HomeAway search application. At the top, there are location input fields for "San Francisco", date range "02/11/2019 → 02/15/2019", and a dropdown for "2". Below these are buttons for "100", "200", and "6" (which is highlighted), along with "Filter" and "Reset Filters" buttons. A "Search" button is also present. The main content area displays two property cards. The first card is for "Stanford Court San Francisco" in SAN FRANCISCO, listed at USD (\$125 per night). The second card is for "Cozy Cottage Amongst the Redwood trees" in SAN FRANCISCO, listed at USD (\$140 per night). Both cards include small thumbnail images of the properties.

After applying filter: Showing 3 properties in San Francisco which is according to the filtered input values

The screenshot shows the same browser window after applying a filter. The search parameters remain the same: location "San Francisco", dates "02/11/2019 → 02/15/2019", and bedrooms "2". The results now show only two properties. The first is "Cozy Cottage Amongst the Redwood trees" in SAN FRANCISCO, listed at USD (\$140 per night). The second is "Views, Comfort, Deck, Outdoor Dining, and Location!" in SAN FRANCISCO, listed at USD (\$170 per night). The interface is identical to the one shown in the previous screenshot, with the same layout and button placement.

Showing 3 properties in the database, according to your search, Rachit:

	Cozy Cottage Amongst the Redwood trees	USD (\$140 per night)
SAN FRANCISCO		
House Cottage 6 4		
	Views, Comfort, Deck, Outdoor Dining, and Location!	USD (\$170 per night)
SAN FRANCISCO		
House Villa 6 8		
	Charming 2BR, 2BA San Pedro Apartment - Harbor Views, Stroll to the Beach	USD (\$200 per night)
SAN FRANCISCO		
House Villa 6 8		

Filter the data by bedrooms only:

Before applying the filter: Showing 16 properties search data without any filter

Showing 16 properties in the database, according to your search, Rachit:

	Stanford Court San Francisco	USD (\$125 per night)
SAN FRANCISCO		
House Apartment 5 5		
	Cozy Cottage Amongst the Redwood trees	USD (\$140 per night)
SAN FRANCISCO		

After applying filter: Showing 5 properties as per the bedrooms filter

React App Not secure | ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/CardSearch

Resetting the filter: Showing back the original home search data

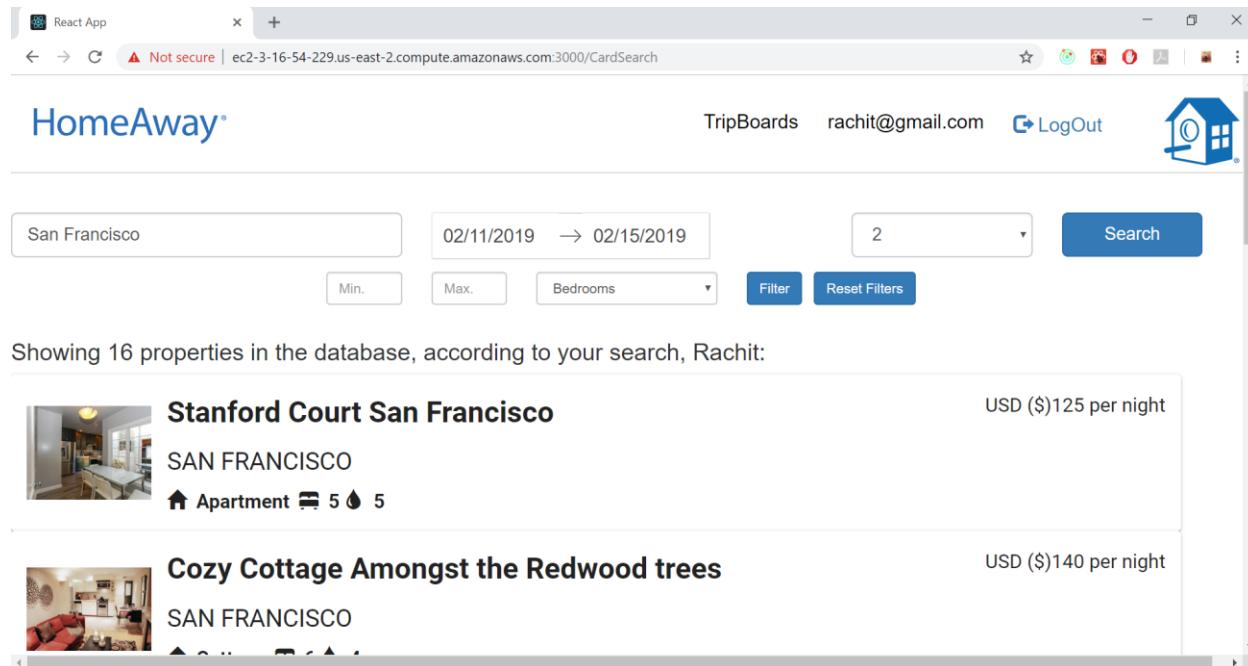

The screenshot shows a browser window for a "React App" at <http://ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/CardSearch>. The user is logged in as Rachit@gmail.com. The search filters are set to San Francisco, dates from 02/11/2019 to 02/15/2019, and 2 bedrooms. The results show two properties:

- Stanford Court San Francisco**: SAN FRANCISCO, Apartment, 5 guests, 5 beds, USD (\$)125 per night.
- Cozy Cottage Amongst the Redwood trees**: SAN FRANCISCO, Apartment, 5 guests, 5 beds, USD (\$)140 per night.

Re-Searching the properties from the properties list page after Home Search:

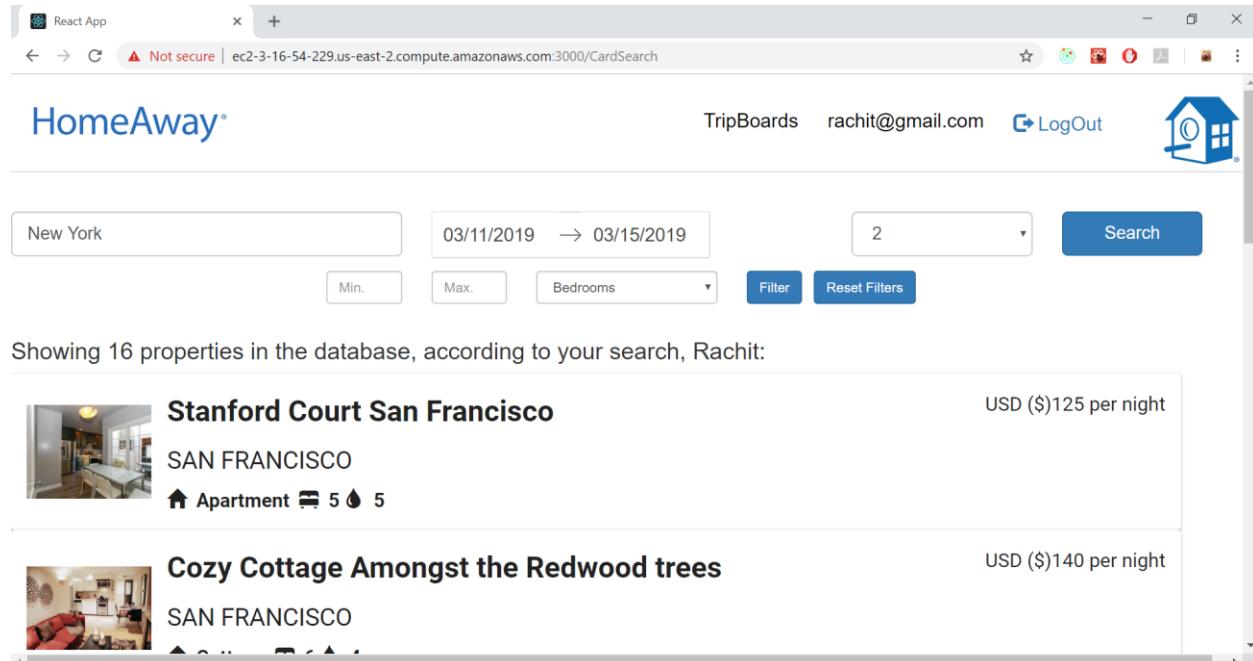

Before search: Showing 16 properties in San Francisco as searched from the HomePage

The screenshot shows a browser window for a "React App" at <http://ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/CardSearch>. The user is logged in as Rachit@gmail.com. The search filters are set to San Francisco, dates from 02/11/2019 to 02/15/2019, and 2 bedrooms. The results show the same two properties as the previous screenshot:

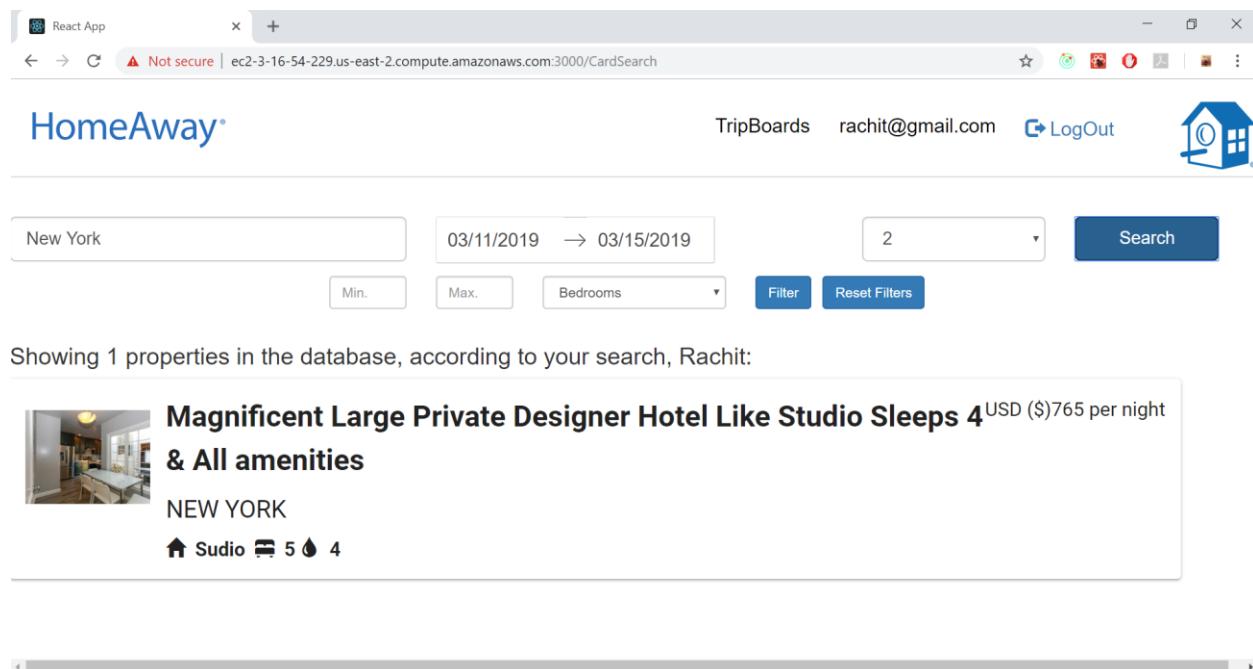

- Stanford Court San Francisco**: SAN FRANCISCO, Apartment, 5 guests, 5 beds, USD (\$)125 per night.
- Cozy Cottage Amongst the Redwood trees**: SAN FRANCISCO, Apartment, 5 guests, 5 beds, USD (\$)140 per night.

Before Search: Entered location, dates and accommodates different values:

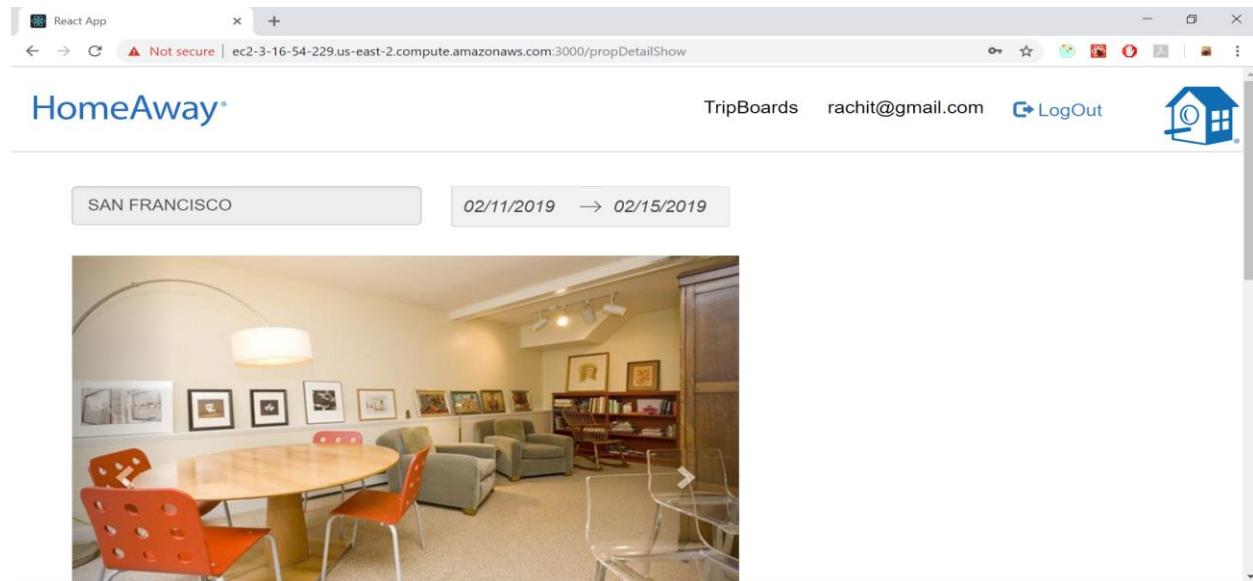

The screenshot shows a web browser window titled "React App" with the URL "ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/CardSearch". The page is titled "HomeAway" and displays a search form with fields for location ("New York"), dates ("03/11/2019 → 03/15/2019"), and accommodates ("2"). Below the form are buttons for "Min.", "Max.", "Bedrooms", "Filter", and "Reset Filters". A "Search" button is also present. The main content area shows a list of properties. The first property is "Stanford Court San Francisco" in SAN FRANCISCO, listed as an Apartment with 5 bedrooms, 5 bathrooms, and a price of USD (\$125 per night). The second property is "Cozy Cottage Amongst the Redwood trees" in SAN FRANCISCO, listed as a Studio with 1 bedroom, 1 bathroom, and a price of USD (\$140 per night).

After Search: Showing the search data for New York, only 1 property is present in the database matching the search values.

The screenshot shows the same web browser window and search interface as the previous one, but the results have been filtered down to a single property. The property is "Magnificent Large Private Designer Hotel Like Studio Sleeps 4" in NEW YORK, listed as a Studio with 1 bedroom, 1 bathroom, and a price of USD (\$765 per night). It includes the note "& All amenities".

Property Details Page:

A screenshot of a web browser displaying a property detail page. The browser window has a title bar reading "React App" and a URL "Not secure | ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/propDetailShow". The main content area shows a large image of a garden with a wooden deck and a house in the background. Below the image, the price is listed as "USD (\$220 per night)" and the guest capacity as "Guests 6". There are two buttons: "Message Owner" and "Book Now". At the bottom, the property name "Jazzy Jives & Flowering Fantasia" is displayed.

SAN FRANCISCO

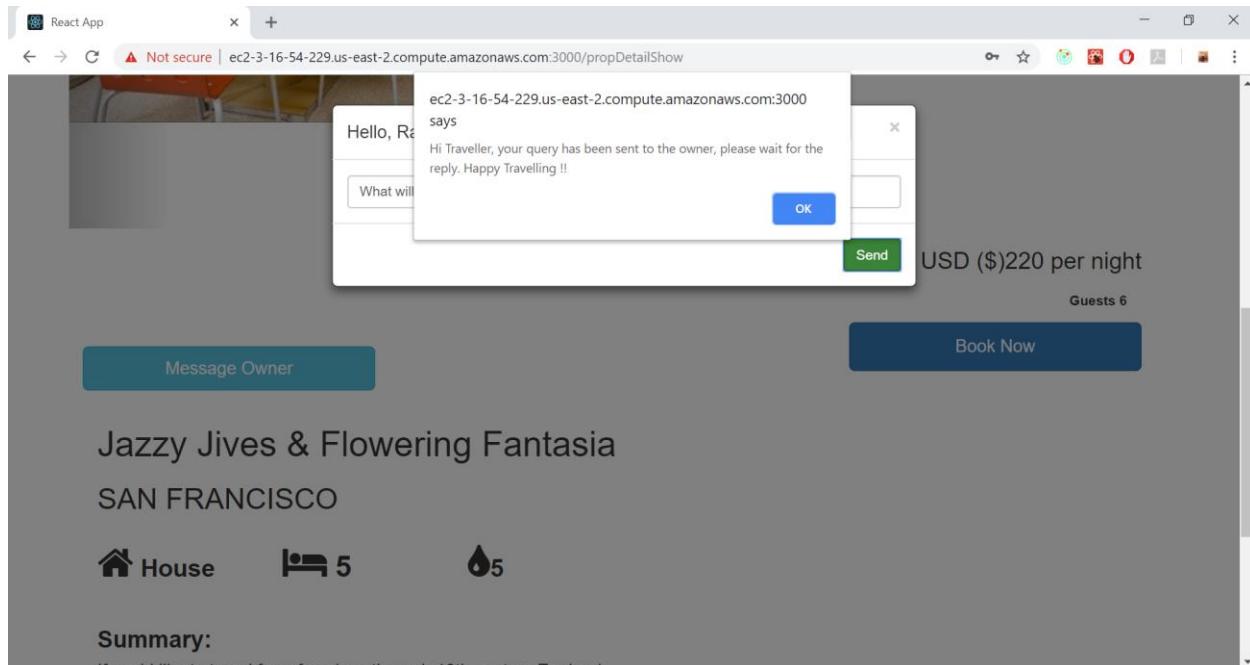

House 5 5

Summary:

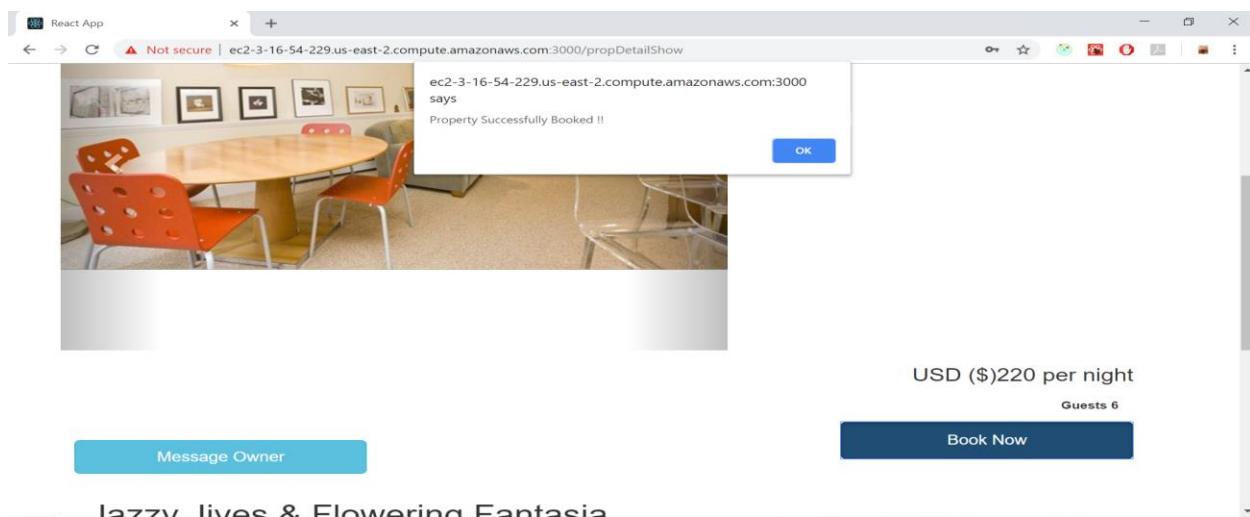

If you'd like to travel for a few days through 18th century England, the French countryside and the exotic East, this 1500 Sq ft home, 2BR/1BA, for 6, will have you swooning to Jazz while enjoying a Scotch. You will also love our 200 sq ft, sun-drenched, flower-filled deck. Bordering El Cerrito and centrally located, this home is close to BART and ideal for those wishing to explore UC Berkeley, San Francisco, Napa and Sonoma wineries and the Redwoods. Rich wood, exotic rugs and a stunning piano welcome you to a comforting interior. An eclectic mix of paintings, patterns and pairs

Traveler Update Profile:

First visit to the update profile page, when no personal details are stored:

The screenshot shows a web browser window for a HomeAway application. The title bar indicates it's a React App and connected to mLab: Cloud-hosted MongoDB. The URL is ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/CreateProfile, with a warning about 'Not secure'.

The main content area displays the 'HomeAway' logo and navigation links: Dashboard, Inbox, My Bookings, and Update profile. On the right, there's a 'Logout' link and a blue house icon.

In the center, there's a large blue placeholder icon for a profile picture, with the name 'Rachit Jain' below it.

A section titled 'User Profile Information' contains fields for First Name (Rachit) and Last Name (Jain), both preceded by small user icons.

This screenshot shows the same browser window after filling out more profile details. The 'Last Name' field now contains 'Jain'. The 'Email address' field contains 'rachit@gmail.com'. The 'Description' field has the placeholder text 'About Me'.

Below these, under 'Address', there are four empty input fields for Street, City, State, and Country. Under 'Work', there is one input field containing 'Work'. Under 'School', there is one input field containing 'School'.

A screenshot of a web browser window titled "React App". The address bar shows "Not secure | ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/Dashboard". The main content area displays the HomeAway logo and a navigation bar with links: Dashboard, Inbox, Display Properties, My Properties Bookings, and List a Property. A dropdown menu is open over the "My Properties Bookings" link, showing options: DashBoard, Inbox, and List a Property. The "List a Property" option is highlighted with a blue border. The top right corner shows a user profile "Welcome, Ayush Garg" and a "Logout" link.

Owner Listing a Property

A screenshot of a web browser window titled "React App" with a tab labeled "mLab: Cloud-hosted MongoDB". The address bar shows "Not secure | ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/PropertyList". The main content area displays the HomeAway logo and a navigation bar with links: Dashboard, Inbox, Display Properties, My Properties Bookings, and List a Property. On the left, there is a sidebar with icons for Property Location, Property details, Property photos, and Property pricing. Below the sidebar is a green button labeled "Submit Property Details". The main form area has a title "Property location" and a text input field containing "San Francisco". At the bottom of the form is a green "Save Changes" button.

Save Changes

This screenshot shows the same 'List a Property' section as the first one, but with some changes. The sidebar now only includes 'Property details', 'Property photos', and 'Property pricing'. The main content area includes a 'Nightly Base Rate' field where '\$ 545' has been typed into the input field. A green 'Save Changes' button is visible at the bottom of the form.

Property Availability and Price Validation:

Owner listing a property but leaving few mandatory fields empty and submitting the property, the property doesn't get listed if such an error occurs:

Display Owner Properties: Showing 10 Properties of the Owner with PAGINATION:

Screenshot of a web browser showing a list of properties for a user named Ayush Garg. The browser title bar indicates it's a React App running on mLab: Cloud-hosted MongoDB.

The main content area displays a list of 10 properties, each with a thumbnail image, title, location, type, and price. The properties are listed in two sections, likely representing different pages of the pagination.

Properties List:

Owner Inbox:

The screenshot shows a web browser window with the URL <http://ec2-3-16-54-229.us-east-2.compute.amazonaws.com:3000/ownerInbox>. The page title is "mLab: Cloud-hosted MongoDB". The main header includes the HomeAway logo, the user's name "Welcome, Ayush Garg", a "LogOut" link, and a blue house icon.

The navigation bar at the top has five items: Dashboard, Inbox, Display Properties, My Properties Bookings (which is currently selected), and List a Property.

Below the navigation bar, a message states "Showing 3 messages in the database for you, Ayush:"

The first message is from a traveler named "rachit@gmail.com" about a "Modern unit w/Private patio, Hot tub, Fire pit, Free Parking + Convertible Car". The message asks, "What will be the climatic condition during my visit in February?"

The second message is from the same traveler "rachit@gmail.com" about a "Charming 2BR, 2BA San Pedro Apartment - Harbor Views, Stroll to the Beach". The message asks, "Do you provide cars and bicycles?"

The third message is from the same traveler "rachit@gmail.com" about a "Magnificent Large Private Designer Hotel Like Studio Sleeps 4 & All amenities". The message asks, "How far is the Times Square from the property ?"
